

To The Public:

The City of Richmond is dependent upon a continuance of the present system of electric railways for reliable and dependable transportation. Efficient and satisfactory service cannot be rendered by a financially unsuccessful operation. The Public, not alone the transportation company, is vitally concerned in the maintenance of the financial integrity of the company engaged in public service.

The undersigned, therefore, deeply concerned in the welfare of this community, do heartily approve the action of the Board of Directors of the Chamber of Commerce at its meeting held February 14, 1922, which was as follows:

BE IT RESOLVED: That the Board of Directors do approve of the action of the Board of Aldermen in refusing to repeal the Ordinance of the City of Richmond authorizing the Virginia Railway and Power Company to charge a six-cent fare, and that the Board of Directors do also approve the proposition of the Board of Aldermen to immediately proceed to adopt suitable measures for the regulation and control of jitney traffic in this city.
